Card and Code

When selected a card and PIN are needed to arm, disarm and access menu functions from a keypad connected to the Challenger.

Issues resolved in this release

Issue	Details
Panel transmit last known history event on same call as test call	If a panel has an TS0898 installed, has set "Enable Extended Event Protocol" and is reporting Test Calls via dialler, the panel will always transmit the last known history event on the same call as the test call. This does not occur in Polled Mode.
