

Market Release Note

MRN-TECOMC4-2016SP8

| | |
|----------------------|-----------------------------|
| Product number: | TecomC4 |
| Product description: | TecomC4 Management Software |
| Product version: | TecomC4 2016 SP8 |
| Affected parts: | N/A |
| Release date: | 10 August 2017 |

Interlogix is pleased to announce the immediate availability of SP8 for TecomC4 Management Software.

The full list of features is available on the website at www.c4portal.com.

A 60-day trial version of TecomC4 is available at www.c4portal.com. Access to the website is only available to trained installers – please visit www.hills.com.au to find a suitable course.

New Features

- Improvements to Monitor, including new items, more customisation options for all items, and a new view showing isolated devices
- Access Guard feature shows card badges on up to 2 doors side by side
- Improvements to credential details in events

Resolved Issues

- Polygons now resize correctly in Monitor
- Resolved issue where tree-view scroll bar would freeze in certain conditions
- Resolved various issues with events and reports

Known issues

- The PIN field on card credentials is not used on the Challenger10 panel. To use card and PIN, operators must create a card record and a PIN record.
- Notification of alarms is only available from the Monitor screen

System Configuration

Detailed programming and configuration of your system is handled using the TitanCT software, available to download from the Interlogix web page at www.interlogix.com.au/downloads.
