

Market Release Note

MRN-TS9002-32B34

Product number: TS9002

Product description: Titan 3.2

Product version: TS9002-R03.02.00 Build 34

Affected parts: TS9002, TS9006

Release date: 14th October 2013

Interlogix is pleased to announce the immediate availability of Titan 3.2.

The release of Titan 3.2 reaffirms our commitment to continue to enhance our platforms, keeping them current in technology, in competitiveness and in market attractiveness; while delivering the latest in new and enhanced features.

New features

Titan 3.2 offers the following improvements:

- Windows 8 64 bit support
- Support for new feature additions in Challenger10 firmware version V10-02
- Remote firmware upgrade functionality for the following devices (note: devices not yet available for sale):
 - TS1020 Analogue DGP
 - TS1001 Touch Screen RAS
 - TS1084 Memory Expander
- Updated Challenger State form to include Challenger type, memory mode and connection type
- Added support for direct upgrades from Titan 1.7 versions and above (relicensing required for versions older than 2)
- Added automated initialisation of history and command queue if corruption is found in the tables

Issues resolved in this release

Issue	Details
V8 to Challenger10 4DC macro logic migration	Resolved issue where "Area Accessed" input event on 4DC macros don't successfully convert when migrating from V8 to Challenger10.
Incorrect default value in Comms Path	Default computer attempts value in Advanced Settings tab in Comm Path configuration should be 255
Can't roll back to V8 if Challenger10 migration fails	Added automated roll back functionality
