

# TruVision IP Keypad (TVK-800)

## Overview

Efficiently control the monitor outputs of multiple recorders and decoders with the TruVision® IP Keypad (TVK-800). An IP keypad designed to be used with the line of TruVision NVRs and DVRs.

Providing a breadth of functionality, the keypad can be controlled using the touch screen display, fully functional buttons, embedded touch pen, or 4-axis joystick.

The touch screen display enables you to view live or recorded camera footage, configure recorder settings or manage different views.

The joystick allows you to smoothly control PTZ movement and navigate between menus.

Relieving the requirement for a separate power supply, the TVK-800 keypad works on a 12V DC as well as PoE-af.

## Standard features

- Control a variety of NVRs, DVRs and decoders with one keypad
- Perform PTZ control
- Display IP cameras on embedded display
- Control recorder OSD
- Control monitor outputs of recorders
- Setting and calling presets and shadow tours
- 7-inch touch screen display
- 4-axis joystick
- Numeric and functional buttons
- PoE-af support
- Embedded touch pen

## Specifications

TFT LCD Options	
Display	7-inch TFT LCD monitor with touch panel
Embedded display resolution	800 x 480
Operations	
Joystick	4-axis navigation
Buttons	Numerical and functional
Touch pen	Embedded in keypad
Audio input/output	
Line in	1-ch, 3.5 mm connector (2.0 Vp-p, 1 k Ohm)
Audio out	1-ch, 3.5 mm connector (Linear, 600 Ohm)
External interface	
Network interface	1 x 100M/1000M Ethernet interface
RS-232 interface	1 x RS-232 interface
RS-485 interface	1 x RS-485 interface
USB interface	1 x USB 2.0 (for data storage and device upgrade)
General	
Power supply	12V DC, PoE
Power consumption	less than 15W
Operating temperature	-10°C ~ +50°C
Operating humidity	10% ~ 90%
Dimensions (W x D x H)	193 x 435 x 110 mm
Weight	2040 g
Supported products	
Devices	TVE-DEC10, TVN20/21/21P/50, TVR11/41/42
